ABOUT + FAQs

We've been in the same boat as you before. We've tried (and failed) at eating less animal products, no matter how powerful our initial environmental, ethical, or health reasons were. But going meatless shouldn't be so hard, right? That's where beGreen comes in.

Designed to hit the pain points of going vegetarian, vegan, or somewhere in the middle, we're designed to make your journey easy and (dare we say it??) enjoyable.

You deserve a treat.

Head over to Taco Bell and ask for your favorite meal with beans instead of beef. Ask to make it fresca for extra “vegan” points!
